

# Flat Pack Floor Standing Retail Display Stand Instructions

## STEP 1.

With two people, slot together the back and side pieces of the unit in an upright position.

## STEP 2.

Working your way up the unit, slot the base of the shelf into the cut-out grooves located in the back panel of the unit and then add the front panel one at a time.

## STEP 3.

Using a screwdriver secure the unit together with the two screws provided for added support.

**Custom Header Panel:** If you have opted for our optional custom header panel, simply use the two butterfly wing nuts to secure it in place.
